

# Oualie Beach Resort

Nevis, West Indies

Oualie Beach Resort is a spacious, beachfront, ecologically sensitive, 3 star Nevis hotel with only 32 rooms located right on a coconut lined beach on the quiet, exotic, un-spoilt, twin island paradise of St Kitts and Nevis.

Enjoy live entertainment on a booze cruise, Party with a BBQ on Beach Boys Band night, attend the general manager's cocktail party and fully take advantage of happy hour 6pm every Friday.

On site activities include beachfront dining; spa treatments; scuba; snorkelling; mountain bikes; windsurfing; sailing; deep sea fishing; kayaks; island tours; car rentals and forest hikes. Nearby activities include golf; tennis; and horseback riding.

Oualie Beach Resort is still the only tourism product on St Kitts and Nevis ever to be green globe certified. We received this certification in 2003. While we appreciate the green globe concept, we have elected NOT to continue the annual green globe certification as they require an annual payment of US\$1450 to their organisation in order to keep certification current. I predict that most of the smaller eco-friendly resorts such as ourselves will opt out of these expensive international programmes that will become financially accessible only to the big international hotel chains. Oualie Beach Resort would prefer to use those annual funds for better purposes such as to support local education, turtle conservation efforts or to buy a chipper to help us compost our garden waste!

Oualie Beach Resort is deeply committed to sustainable tourism practices. These range from electricity and water saving techniques to community development. John Yearwood is on the Board of the Nevis Historical and Conservation Society.

### **CHILL SPA PACKAGES**

The chill spa located at Oualie Beach Resort is owned and operated by Sharon Gillam, who is English, with Nevisian roots, and is a highly trained sports masseuse who is rapidly acquiring a reputation as one of the very best in the Federation. What makes Oualie Beach unique as a dive resort is that if your non diving spouse is accompanying you then they will have lots of other activities to keep them happy while you are out diving! Nice beach, spa treatments etc!
